

Tipper Trailers

- 1 Unique to Indespension is the 5'6" wide deck on the 8' model
- 2 The chassis has three cross members for immense strength
- 3 Low profile wheels allow a lower deck height for easier loading and unloading
- 4 Fixing the panels externally of the deck allows the deck to be fully utilised
- 5 Corner posts are also situated externally of the bed, avoiding cut-outs in the floor
- 6 Heavy duty ramps store neatly under body
- 7 Unique angled prop stands are easy to use
- SuperRide suspension and TripleLock coupling
